Dear Marton,

Please find attached my English Curriculum Vitae , as I would like to apply for one of the positions available on Hungarian Cricket Association Board

I have now spent nearly 4 years here in Hungary and feel that now is the right time to apply for a board position to help Hungarian Cricket

I have completed 3 years as the League Chairman , I am heavily involved with the National team as a player and a coach plus also working at Bat & Ball Cricket Academy. Through all these aspects of cricket in Hungary I have been involved in, I think that I have shown my cricket knowledge and understanding of the game, to be of the standard needed to take Hungarian Cricket forward

I have had 25 years valuable experience of playing the game at a high level in England before I moved to Hungary, I was a long standing member of the committee at my playing club and most seasons was involved in lots of things off the pitch as well as on it

Thank you for your time and consideration of my application.

I look forward to hearing from you.

Yours sincerely,

Duncan Shoebridge
