

## Cover letter for the HCA Board Election application

By being an active Board Member and President of HCA for the past 5,5 years ive learnt a lot.

Learnt a lot about sportmanship, learnt a lot about tolerance, learnt a lot about managing an ever popular sport in a small country with different cultural and political background on a really tight budget.

And most importantly learnt a lot about spirit of cricket, that floats above all the problems and makes this journey so enjoyable.

So if you are willing to lay your trust again in me, then I cant promise any less tears or sweat, but only to continue the work along the lines of the recently presented fresh strategy, and share our energy between the grassroot development and the high performance cricket in the most effective way.

I have high hopes this time, as it looks like our community is getting mobilized, as well as the Board itself is getting a fresh human boost by expanding to 7 members during this election.

So good luck to all of us, and may cricket flourish in Hungary

Márton
