

Dear Mr Marton,

Please accept this letter of application for the post of “National team organiser” , I believe my experience of playing cricket in Hungary and for Hungarian National team for last 8 years or so is unmatched and the experience and comradery I have with the current crop of players will allow me to successfully fulfil and in true terms even exceed the requirement of the position.

I understand the ask of this position and my immediate mission will be to get as much Cricket as possible for the National team (Home and away) and at the same time navigate ways to financially fund the ambition and in my view its imperative to have a solid National team to have presence on European cricket scene which is getting competitive by day and our Boys have done well so far by reaching every final in the tournaments they have participated so far in last 3-4 years.

As National team organiser, I would work on a development program for the current and those with aspirations to play for Hungarian national team and improve the cricketing skills of expats and Natives alike. And there are ideas of getting a fulltime sponsor for National team which is essential in the grand scheme of things. I will share more details when the time is right but for now, I believe and certain of doing justice to the post I am applying for and with vast experience of playing and exposure to the cricket scene in Europe along with the travelling I have done with team in the past will be handy and will certainly help me to take the Hungarian National team to a new heights and achieve the ultimate goal of playing under ICC banner.

Sincerely,

Sufiyan k Mohammed
